Doctor Tells How to Strengthen Eyesight

By the simple use of Bon-Opto, says Dr. Lewis, I have seen eyesight strengthened 50% in a week's time in many instances, and quick relief brought to inflamed, aching, itching, burning, work-strained, watery eyes. Read the doctor's full statement soon to appear in this paper. Bon-Opto is sold and recommended everywhere by Druggists. —L.S.

BRITISH MINERS TO CONFER ON STRIKE

Agree to Meet Sir Robert Horne and May Reconsider Recent Vote.

ELECTRIC STRIKE WAITS

Union Announces Willingness to Submit Dispute to Court Arbitration.

Special Cable Dispatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

LONDON, Sept. 15.—Both the coal miners and the electrical workers' strike crises took a sudden turn for the better to-night. While it is too early to predict a settlement of the disputes without a struggle that will paralyze London's lights and tube transportation next Saturday and cause the shutting down of practically all industry should the miners adhere to their determination to quit work a week from next Saturday, the doors to a settlement, hitherto hidden, have been opened.

The miners have announced a conference with Sir Robert S. Horne, president of the Board of Trade, this morning and the call, subsequently, for a full conference of miners' delegates in London, a step which is regarded as meaning nothing less than a reconsideration of their determination to strike. This of their determination to strike, this reconsideration is believed here to be in view of the new circumstances in the situation made plain in Premier Lloyd George's declaration that the mines will not be released from Government control for two years and his revelation that the mine profits were only half of what the miners contended they were.

The joint council of the electrical trades announced through the Ministry of Labor they would recommend that the electricians of London withdraw their strike notices, in which they threaten to cut off the lights and shut down the tubes next Saturday, the joint council characterizing the notice as unwarranted.

NEW GAINS FOR WRANGLER.

Railway from Voronezh to Taurisya Cut.

PARIS, Sept. 15.—New successes for the army of Gen. Wrangel, anti-Bolshevik leader in Southern Russia, are announced to-day in Constantinople.

On the Don River Gen. Nizov has cut the railway line from Voronezh to Taurisya. At Malikou the 34th Division of Bolsheviks is said to have surrendered to insurgents.

BOMB IN CHILEAN MINISTRY.

WASHINGTON, Sept. 15.—A bomb was exploded in the building occupied by the Minister of Justice at Santiago, Chile, last Monday night, the State Department was advised to-day by the American Embassy there. The building was damaged, but there were no casualties.

No further information was conveyed in the advice, but officials here assumed that the explosion was the result of the election contest now before Congress.

AIR SERVICE FOR MOROCCO.

MADRID, Sept. 15.—Approval of an appropriation of 1,200,000 pesetas for the development of military aeronautics has been given by the Minister of Finance, and announcement is made that the War Ministry has acquired a large number of airplanes for service in Morocco.

AUSTRIA REPORTED ALLY OF CZECHS

Secret Agreement Between Dr. Renner and "Little Entente" Alleged.

Special Cable Dispatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

BRATISLAVA, Sept. 15.—It is believed here that, despite all Austrian denials, there is a secret agreement between Dr. Karl Renner, Austrian Foreign Minister, and the "Little Entente" (Rumania, Czechoslovakia and Jugoslavia). In case of an armed conflict between Hungary and Czechoslovakia Dr. Renner has promised every possible assistance to the Czechs short of military intervention, it was reported.

These reports add that Dr. Renner agreed to resort to a boycott of Hungary in the event of a restoration of the Hungarian monarchy.

On the other hand, if Austria should be attacked by Hungary, it was reported that the Czechs have agreed to intervene on Austria's behalf.

Reports received here are to the effect that this alleged agreement between the Austrian and "Little Entente" statesmen cannot be regarded as official, but, instead, is a personal engagement.

Dr. Renner is declared in well-informed German quarters to have been the chief agent in bringing the "Little Entente" into life.

NEW PRESIDENT FOR FRANCE IS ASSURED

Continued from First Page.

It is in shape, to set up that which is necessary in Presidential elections. Too, at the Hotel des Reservoirs, where the elections always are held, there were unmistakable signs that another such luncheon was about to be given. Employees of the Hotel des Reservoirs said frankly that reservations for tables for this luncheon were already being received by the hotel management.

News that President Doumergue would resign came as no great surprise to his friends who knew the state of his health.

It was said that they, as well as the President and his family, have known for a long time he would have to give up his high office, and that his resignation was postponed until the political and international situation cleared up; until, indeed, it could be presented and acted upon without interfering with the country's progress toward rehabilitation and reconstruction.

Now that it is known that the President will resign, however, it is expected that there will be little delay in selecting his successor. According to the figures to-day, when the Cabinet meets on Friday it will be informed when the President has decided to present his resignation. If this is to be at once, an extraordinary session of the National Assembly will be called to hear the resignation and act on it. Within forty-eight hours the Senate and Chamber would be called on to meet in Versailles and elect a new President. Then they would adjourn until November, when the regular session of Parliament begins.

PREPARE TO SHIP U. S. DEAD.

Cherbourg Warehouses Are Great Mortuary Chapels.

CHERBOURG, France, Sept. 15.—Preparations for shipping to the United States bodies of American soldiers who fell on the battlefield or died on French soil are going forward here. Hundreds of carpenters are building coffins, while scores of seamstresses are making the funeral ornaments which will be placed upon the coffins when they are sent back to the United States.

Great warehouses have been transformed into mortuary chapels and tapers are kept burning around a huge catafalque, which is in readiness to receive the bodies as they reach Cherbourg from the front. The American transport Antigone, with a cargo of lumber for coffins, arrived here to-day and is unloading the shipment.

JAPAN GOING INTO THE SILK BUSINESS

Cabinet Decides to Lend Big Syndicate \$25,000,000.

Special Cable Dispatch to THE SUN AND NEW YORK HERALD, Copyright, 1920, by THE SUN AND NEW YORK HERALD.

TOKYO, Sept. 15.—The Japanese Cabinet Council has decided to aid the silk industry of this country by financing a syndicate to maintain prices through control of exports. The syndicate, according to reports, will be composed of exporters, manufacturers of silk thread and sericulturists, and will be financed by a loan of 15,000,000 yen (about \$7,500,000) by the Bank of Japan and \$4,000,000 yen (about \$2,000,000) by the Government at a rate of interest of 2 per cent. a year.

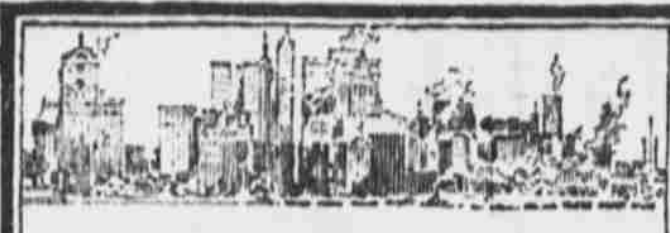

It is proposed that the minimum export price of silk shall be 1,500 yen (about \$750) a bale. If necessary to accomplish this there will be a reduction of exports by 50 per cent., a reduction in manufacture and possibly a curtailing of production.

CLEVELAND ROADSTER \$1485

Plenty of power; plenty of legroom; plenty of stowage space; speed and virility combined with solid comfort and reliability—you find it all in this attractive roadster, together with a motor so responsive that it seems almost to read your thought. KNOWLEDGE

Never is a little learning more dangerous than when it applies to the writing of a will—that most intricate of all legal documents.

The safety of the inheritance you leave your children depends upon your will and your choice of executor. The knowledge of your lawyer will assure you a properly drawn and witnessed will and that of the trust company the competent administration of your estate.

Consult our officers about the appointment of this company as your executor.
